

SAMANTHA KENNY

Program Officer,
World Wildlife
Fund US

ABOUT SAMANTHA

Samantha Kenny is a Program Officer on the Food Waste Team within World Wildlife Fund – US, where she manages workstreams engaging the food service and tourism sectors in efforts to prevent and manage food waste. She coordinates food waste measurement and prevention projects across the globe in regions include Latin America & Caribbean, Europe, Africa, and the Asia Pacific. She attended American University's College of Arts & Sciences, where she pursued her Bachelor of Arts degree in Environmental Sciences. As she completed her Master of Science degree in Sustainability Management degree at American University's Kogod School of Business, she worked with the District government of Washington, DC to address resource waste in a local feeding program serving low income youth. Since joining the Food Waste Team at World Wildlife Fund, she has worked to develop and globally scale guidance for hotels to prevent and manage food waste, housed on HotelKitchen.org. She recently completed a Professional Certificate in Sustainable Tourism Destination Management at the George Washington University School of Business. She is also a freelance travel writer and has ghostwritten for magazines such as National Geographic Traveler and The Washingtonian.

WORLD WILDLIFE FUND

For over 50 years, World Wildlife Fund has been protecting the future of nature. The world's leading conservation organization, WWF works in 100 countries and is supported by 1.2 million members in the United States and close to 5 million globally. WWF's unique way of working combines global reach with a foundation in science, involves action at every level from local to global, and ensures the delivery of innovative solutions that meet the needs of both people and nature.
